I am against the 300%+ increase in my base rate for a 1" meter. I am not against a lesser, more reasonable rate increase. I feel this proposed rate increase is one more step in a very negative atmosphere for a home owner. I had a remodeling job performed on my house in 2013 and the Sedona Fire District required me to install a fire sprinkler system, which forced me to have my water meter replaced with a One inch meter. That situation increased my water rate by 33%, which I did not feel was unreasonable, but this proposed rate increase is not reasonable. The nearest water company is the Big Park Water Company whose rates are much lower. They offered to purchase the Pine Valley Water Co. last year when they were in financial and water quality trouble. Approximately 30 Pine Valley Water customers came up with sufficient funds to pre-pay their water bills so that the Arsenic Treatment system could be purchased and installed. Consequently, this rate increase is even more onerous. Thank You.
